

# Simple Average EA Manual

## How EA Works: EA As 2 trading Modes

1. With **Price Channel V1.3 Indicator Activation** ( if the Indicator shows UpTrend EA Open Buy trades ) by **Selecting True or False.**

Expert - Simple average EA

Variable	Value
--- Main Indicator Settings ---	
Indicator Active	true
text	-- If Indicator False select Trade Type
Trade type	Buy_Only
Indicator File Name	pricechannel_stop_v1.3
Indicator Period	current
Chaneel Period	21.0
Risk Value	0.3

2. Without Assisting Indicator: By Selecting Trade type -

- a. Buy only: Only open Buy trade.
- b. Sell Only: Only Open Sell trade.

When the price goes below entry or going lose within a **given Pip distance** EA opens a **new trade** Based on the **Martingale formula.**

### Martingale Settings:

- **Adding Lot size:** Adds Next lot with the given value each time opening.  
( Example: Prev Lot size [ 0.01 ] + Adding [ 0.01 ] = Next Lot [ 0.02, 0.03, 0.04 ] )
- **Multiplied Lot Size:** Multiplied with given value.  
( Example: Prev Lot size [ 0.01 ] + Multiplied [ 3 ] = Next Lot [ 0.03, 0.09, 0.27 ] )

--- Martingale Settings ---	
Lot Size in Starting	0.01
Adding lot size ( 0 = not used )	0.01
Multiplied lot size ( 0 = not used )	0.0
--- Orders Entry Settings ---	
Max Trades open	11
Grid Gap	10.0
Stoploss	0.0
